

Art for Akanksha Mural Portfolio

Art for Akanksha's murals are custom created to fit your space at home, in office or even in a school. They are customised in terms of the designs and art as well as bringing students in to paint along with you if that's what you'll like. They are professionally done in terms of the process as well as the quality and still have that something special. Working with students and getting time to really understand them as they paint is an experience we highly recommend. It makes the mural come alive with stories.

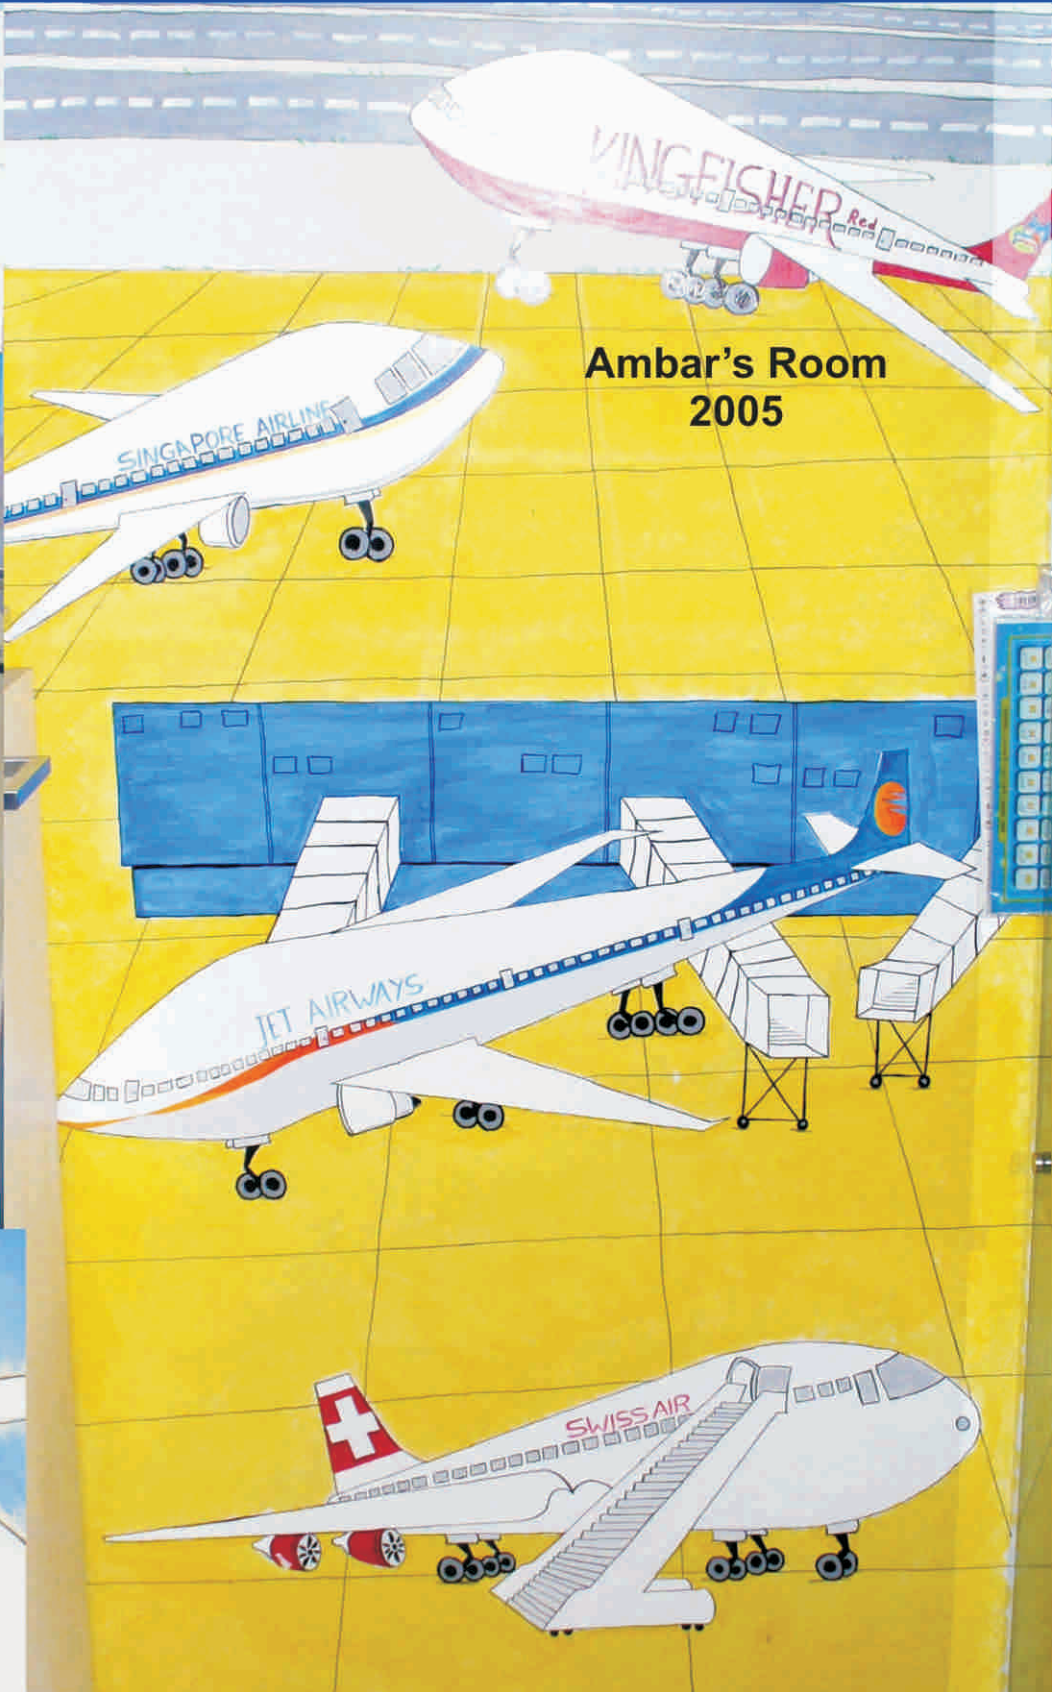

'It was amazing to watch how the tree painted by Art for Akanksha grew from a pencil drawing on the wall to a beautiful piece of our family's memories and experiences that will light up our room for years to come.'
Gopika, author *Spiritual Pregnancy* and *Spiritual Parenting*
